

App. No. 10/812,566  
Amdt. Dated Mar. 27, 2006  
Reply to Office Action of Dec. 27, 2005

### **Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application:

#### **Listing of Claims:**

**Claim 1 (previously presented): An IPS (in plane switching) liquid crystal display, comprising:**

a first substrate;

a second substrate opposite to the first substrate;

a liquid crystal layer disposed between the two substrates;

a plurality of common electrodes and pixel electrodes disposed on the second substrate; and

a plurality of spacers disposed on the common electrodes and the pixel electrodes;

wherein the spacers are made of an ACF (anisotropic conductive film).

**Claim 2 (original): The IPS liquid crystal display as claimed in claim 1, wherein the spacers have a rectangular cross-section.**

**Claims 3-4 (canceled)**

**Claim 5 (original): The IPS liquid crystal display as claimed in claim 1, wherein the spacers have a circular cross-section.**

**Claims 6-7 (canceled)**

Appl. No. 10/812,566  
Amdt. Dated Mar. 27, 2006  
Reply to Office Action of Dec. 27, 2005

**Claim 8 (original):** The IPS liquid crystal display as claimed in claim 1, further comprising a plurality of counter electrodes disposed between the spacers and the first substrate.

**Claim 9 (previously presented):** An IPS (in plane switching) liquid crystal display, comprising:

a first substrate;

a second substrate opposite to the first substrate;

a liquid crystal layer disposed between the two substrates;

a plurality of common electrodes and pixel electrodes disposed on the second substrate; and

a plurality of spacers disposed on the common electrodes and the pixel electrodes;

wherein each of the spacers comprises a spacer body and an electrically conductive film around the spacer body, and the conductive film is made of an ACF (anisotropic conductive film).

**Claim 10 (original):** The IPS liquid crystal display as claimed in claim 9, wherein each of the spacers has a rectangular cross-section.

**Claim 11 (original):** The IPS liquid crystal display as claimed in claim 10, wherein the spacer body is made of glass.

**Claim 12 (canceled)**

**Claim 13 (original):** The IPS liquid crystal display as claimed in claim 9, wherein each of the spacers has a circular cross-section.

**Claim 14 (original):** The IPS liquid crystal display as claimed in claim 13,  
wherein the spacer body is made of glass.

**Claim 15 (canceled)**

**Claim 16 (previously presented):** The IPS liquid crystal display as claimed in  
claim 9, further comprising a plurality of counter electrodes disposed  
between the spacers and the first substrate.

**Claim 17 (canceled)**

**Claim 18 (canceled)**

**Claim 19 (canceled)**
